Summary

JavaScript developer of web interfaces with a background in sysadmin and tech support. I have also worked wit CMS tools like WordPress, Strapi and Payload. I can bring a web project fully from ground up installing the network, server on premises or in the cloud, to the final product guiding or evaluating the user experience.

* Tech Stack
Frontend: React, Redux, Svelte, MaterialUI, Tailwind, ChakraUI, Bootstrap
Backend: Postgresql, MariaDB, Mongo, PocketBase
CMS: Wordpress, Payload, Strapi
Sysadmin: Network installing, tech support, Ubuntu configuration, vps administration, cpanel
Other: Payment gateways (mercadopago), Rest API's, Express, Sequelize, Wix's Velo editor

20+ years of know-how in IT
Fresh and tidy JS/React/Rest API web development
Rare soft skills that only an IT person out of IT can get
Conversational (fairly neutral accent) english
I'm all ears and sure would love to hear about you!
